5/4/23

*flows/initial designs

    -put each of our designs and flows in the front end teamspace

*organized notion for a while

*we elected to have the leaderboard on the home screen

*went over potential color schemes

*elected not to use view(RIP View)

*deciding some tasks

*will use Will's token template

*confirmed we will have a blue oriented color scheme

*next two meetings set up(see discord)

*we started a live server
